1st November 2019

IMO 2020 Fuel Legislation Environmental Fuel Fee (EFF)

Effective 1st December 2019, Hamburg Süd will introduce an Environmental Fuel Fee (EFF). The EFF has been calculated based on the price spread between high-sulphur fuel and low-sulphur compliant fuel. The difference calculated is **193,08 USD/ton**, which results in following EFF amounts per trade:

From Far East Asia

Trade	EFF in USD			
	20ft		40ft	
	Dry	Reefer	Dry	Reefer
Far East Asia to Australia	116	174	232	348
Far East Asia to East Coast South America	116	174	232	348
Far East Asia to Mediterranean	116	174	232	348
Far East Asia to New Zealand	84	127	168	254
Far East Asia to North Europe	116	174	232	348
Far East Asia to South Africa	116	174	232	348
Far East Asia to South Africa	116	174	232	348
Far East Asia to US East Coast	282	424	314	471
Far East Asia to US West Coast	169	254	188	282
Far East Asia to West Africa	188	282	376	564
Far East Asia to West Coast South America and Central America	145	217	290	434

The IMO 2020 initiative will reduce sulphur oxide emissions of shipping by as much as 80% or more. Unfortunately for now this initiative causes an additional financial burden for logistics cost.

We will continue to seek ways and means to meet the IMO 2020 requirements at the lowest possible cost. The EFF tariffs will be reviewed monthly and only adjusted if the price of low-sulphur fuel has changed by USD 50 per ton.

Thank you for your continuous support of our services. Please contact your local Hamburg Süd representative should you require more information.
