Port and Terminal Update No. 24 U.S. West Coast

Dear Reader,

With our 24th update on the West Coast port and terminal situation we hope to end this series of reports.

Following a tentative agreement between the PMA and ILWU we have seen a resumption of night time and weekend work and improved productivity in most ports.

This has allowed us to re-instate Oakland calls on our String 3 of our Trans-Pacific Service. We are planning to resume Oakland calls on our California-North Europe as well as on the PNW string of the Australia/New Zealand service as soon as possible.

We wish to thank you for your support during one of the longest waterfront labor dispute in recent history and hope that normal operations will be established in all ports very soon.
